

The Third International Workshop

Florence 2022
April 24th-27th

“ANALYSING ART: NEW TECHNOLOGIES - NEW APPLICATIONS”

On behalf of the Organising Committee, I cordially invite you to participate in the third international workshop, Analyzing Art: New Technologies – New Applications dedicated to the application of new technologies in the analysis of cultural heritage. This time the workshop will be held in one of the most magnificent cities in the world, Florence, Italy, from April 24th - 27th, 2022.

The multi-disciplinary workshop will focus on non-destructive testing for the preventive conservation of art as it relates to the sustainability of cultural heritage and will bring together scientists, engineers, curators, restoration experts, conservationists, and art historians. This event will be a unique confluence of art and technology communities and is indicative of the high-tech trends that have been impacting cultural heritage.

We expect to host leading experts in this field from all over the world and have prepared a stimulating and informative scientific programme including substantial networking opportunities.

EVENT SCHEDULE

We are currently making arrangements for special tours during the workshop weekend and planning to start the conference with a welcome reception buffet.

Monday and Tuesday we will have full workdays and on Wednesday we will have a session that will end late afternoon.

On one of those days, we are planning to have guided tours to The Uffizi Gallery, The Galleria dell'Accademia and The Opificio delle Pietre Dure.
